

## RESOLUTION XII – ARGENTINA

THEME : 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

CONCERN : NEW ARGENTINA AND ITS INTERNATIONAL INDUSTRIAL PLAN TO FIGHT POVERTY AND SUPPORT OPPRESSED PEOPLES

THE GENERAL ASSEMBLY,

- |             |   |
|-------------|---|
| Alarmed     | that Antarctica, according to the treaty bearing the same name, currently belongs to no State, and that its vast territory remains largely underexploited, despite immensely costly and rarely fruitful international scientific projects carried out on this continent,  |
| Affirming   | that Antarctica is a territory and a heritage shamefully stolen from the great nation of Argentina, which represents the geographically closest and historically legitimate country to exercise sovereignty over it,  |
| Distressed  | to observe that, according to the United Nations, more than 800 million people, mainly from countries of the Global South, are today victims of extreme poverty, lack of drinking water, healthcare and infrastructure, and that other nations are suffering from overwhelming and devastating wars, preventing them from developing properly,  |
| Considering | that a large-scale international industrial project is conceivable on the Continent of Ice, allowing the creation of port, airport, industrial and residential zones, while preserving international scientific projects and international cooperation,   |
| Adding      | that the climatic impact will be null, as climate change proves to be non-existent and merely a collective hallucination,   |
| Decides     | <p>to fully repeal the Antarctic Treaty and to proclaim Argentina as sovereign over Antarctica, which shall become the 25th official region of the country; consequently, Argentina shall become the 2nd largest nation in the world ;</p> <ul style="list-style-type: none"><li>- to create A.N.T.A.R.C.T.I.C.A. (Alliance for a New Transformation and Absolute Reclamation of a Confiscated Territory Injustly Confiscated from Argentina), an international body responsible for ensuring the industrial, humanitarian and economic development of the continent, as well as that of Global South countries, by facilitating their access to markets through the establishment of port and airport zones directly in New Argentina ;</li><li>- to welcome onto the new Argentine ice territory oppressed populations and all peoples deprived of freedom, guaranteeing them housing, security and employment in a peaceful and very “warm” environment.</li></ul> |
